

polaris

The latest version of the famous Diamondguard antenna. Special light conductive glass enhances the full illumination of the antenna which is achieved by extreme bright LEDs. The Polaris shines and glances in 3 different color variations.

* variations

* accessories

The **polaris** system is compatible with any RF tag and label types as well as with **loxys** media safers.

- * round hard tags
- * teardrop hard tags
- * soft tags (for thinner clothing, like fine lingerie, etc.)
- * self-adhesive, deactivatable paper labels
- * self-adhesive, non-deactivatable paper labels
- * laminated tags
- * and a wide variety of other RF accessories!

* benefits

- * due to the **polaris's** excellent technical parameters the system renders the most effective detection performance
- * the system is capable of detecting any type of Shopguard surveillance tag on the given frequency
- * available with integrated metal detection feature
- * chrome-plated steel and safety-glass combination makes antennas particularly resistant
- * deactivation of paper sticker labels can be accomplished with 100 % efficiency, thus avoiding
- * false alarms caused by incorrect deactivation possibility for integrated deactivation in barcode scanner
- * self-adjusting electronics filters electrical disturbances using software solution
- * 3 color variations available as TX/RX or TRX systems

loxys >
